

Super Glidex® Lubricant

- by Unipak

Super Glidex® Lubricant is a highly effective silicone sliding agent which is applied for the assembly of O-ring sealed plastic pipes.

Super Glidex Lubricant is snow white, with a pleasant creamy consistency. Neutral pH-value (about 7). Is also available in a special version that can be used down to -30°C.

Super Glidex®

Super Glidex ensures easy and problem-free joining of O-ring sealed plastic pipes. Super Glidex has a very good adherence property even in wet/moist conditions. The silicone content facilitates future adjustments or disconnection, as well as preventing ageing of rubber components. Super Glidex may be used down to -10°C, but the product is also available in a special version which can be used down to -30°C.

DIRECTIONS FOR USE:

Pipes and joints cleaned of sand, soil, and other dirt. Apply the spigot end of the pipe an even layer of Super Glidex®, after which assembling can be carried out easily. Super Glidex® is applied with a brush or directly on the pipe from the tube. Besides, follow assembly instructions of the pipe manufacturer.

CLEANING:

Stains on clothes: Clean with water.

Skin contact: Wash with soap and water.

Eye contact: Immediately rinse with water.

NOTICE! Clean floors carefully for any spill to avoid fall accidents.
